To update ME-ARTR Firmware:

1. Turn off/disconnect AC source so unit is not charging.
2. If unit is inverting, press on/off button to turn off inverter.
3. Record current settings as these will be lost after updating.
   a. Use this guide to record your current settings: https://www.magnum-dimensions.com/sites/default/files/MagDocs/ME-ARTR%20%28VERSION%204.0%29%20COMPATIBILITY%20MATRIX%20%2810-25-2018%29.pdf
4. Insert a blank microSD card (no bigger than 32GB) into your computer (an adapter may be required)
5. Format microSD card to FAT32
   a. Right click on microSD card folder.
   b. Left click on "Format…"
   c. Under "File system" select FAT32 if not already selected.
   d. Press "Start" to format.
   e. Press "OK" to start formatting.
   f. Press "OK" after formatting is finished.
   g. Press "Close" to clear out of the formatting window.
6. Download updated firmware from our website: https://www.magnum-dimensions.com/me-artr-advanced-remote
7. Save this file to your microSD card.
8. Remove SD card from your computer and insert it into the SD Card Slot of your ME-ARTR.
9. Press the "TECH" button of the ME-ARTR.
10. Rotate the Select Knob to "09 Load New Firmware"
11. Press and hold the Select Knob for 5 seconds (the timer will count down to 0).
12. You can now remove the microSD card from the ME-ARTR and reprogram any settings you have marked above.
